

COOKIE EXCAVATION

Be an archaeologist and try extracting a chocolate chip "artifact" using your toothpicks.

1. Place your cookie in the middle of Grid A.

2. Note the coordinates of the top, bottom, left side, and right side of the cookie. Use them to sketch the outline of the cookie on Grid B

3. Before excavating, note the coordinates of any chocolate chips you can see. Use them to sketch the chips onto Grid B.

4. Use a toothpick to excavate your cookie. As you find chocolate chips, note their coordinates and sketch them onto Grid B.

Were there more chips in a certain spot? Did you excavate them all?
